# Shady Park Nursery

We specialize in cold storing top quality Oriental Magnolias from Welch Bros. Nursery, Inc., of Wilmer, Alabama

Rural Route 3 — Shady Park — Telephone: 3126-W

Columbia City, Indiana

ONCE AGAIN WE ARE OFFERING YOU OUR FINE STOCK OF ORIENTAL MAGNOLIAS WITH DORMANT BLOOM BUDS to be stored and distributed from Columbia City, Indiana.

In the Alabama climate the magnolias come into flower and growth buds in February, thus our sales are affected. The plants will be shipped from the Welch Bros. Nursery during the month of January to prevent the Magnolias from coming into flower and growth buds. The bloom buds will be preserved from freezing, yet they will be kept cold enough to prevent new growth. When your spring selling season begins these most Showy and Striking Beautiful early blooming plants will be ready for display on your sales yard.

During the past summer there has been a wonderful growing season for nursery stock in south Alabama, especially the Magnolias which have enjoyed the almost daily rains. The Magnolias were trimmed early in the Spring and were given close attention. Now they are heavily branched plants and the best the Welch Bros. have ever produced.

We list the following:

MAGNOLIA SOULANGEANA. Very hardy, fast growing and most popular of the Magnolias.

MAGNOLIA ALBA SUPERBA. Leaves are a little broader and flowers a little darker than the soulangeana, turning to a light pink. A beautiful long lasting flower.

MAGNOLIA SOULANGEANA NIGRA. Growth shrubby and erect. Flowers purple outside. It flowers a week or two after the soulangeanas. Our hardy Nigra and Soulangeana together will double the length of a spectacular flowering season for your customer.

## PRICES OF ABOVE MAGNOLIAS, BALLED AND BURLAPPED WITH BLOOM BUDS.

	10	100	
2 to 3 feet, field grown	\$25.00	\$225.00
